422 Rec'd PCT/PTO 29 MAR 2000

BOX PCT

IN THE UNITED STATES ELECTED OFFICE
OF THE UNITED STATES PATENT AND TRADEMARK OFFICE
UNDER THE PATENT COOPERATION TREATY-CHAPTER II

5 APPLICANTS: Otger Wewers DOCKET NO: P00,0451
SERIAL NO: GROUP ART UNIT:
EXAMINER:
INTERNATIONAL APPLICATION NO: PCT/DE98/02837
INTERNATIONAL FILING DATE: 22 September 1998
10 INVENTION: **INTEGRATED CIRCUIT FOR A MOBILE RADIO
DEVICE WITH CALL-ANSWERING FUNCTION**

Assistant Commissioner for Patents,
Washington, D.C. 20231

15 **INFORMATION DISCLOSURE STATEMENT**

In accordance with the provisions of 37 CFR §1.56, Applicants request that citation and examination of the references listed on Form PTO-1449, copies of which are enclosed herewith in accordance with 37 CFR §1.98, be made during the course of examination of the above-identified application for United States Patent.

Document AL, German DE 40 19 009 A1 relates to a multi-functional radio device for mobile telecommunication which has a handset which contains an answer phone and a single control unit to control all functions.

Document AM, German DE 43 29 721 A1 relates to a telephone subscriber appointment interface for radio appointments with a send-receive changeover switch which compares multifrequency call tone sequences from radio appointments with a programmed number to active telephone subscriber appointments.

Document AO, German DE 44 07 133 A1 relates to a wireless data and telephone transmitting mobile radio system which can be connected to terminal devices to act as a mobile or a car telephone or facsimile machine.

Document AP, German DE 44 25 579 A1 relates to a digital telephone answering machine with software and speech memories which has a computer interface for call-up and activation of software implemented basic and additional specific operational functions.

Document AQ, German DE 195 35 612 A1 relates to a mobile telephone with an automatic call answering function which comprises an additional unit for storing spoken messages of a caller, or reproducing stored speech messages to a caller.

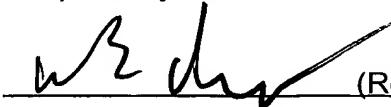

5 Document AR, German DE 44 34 983 A1 relates to a hand held radio telephone apparatus which includes memory for speech information and a keyboard for operating memory accommodated in the housing.

Document AL1, German DE 195 39 635 A1 relates to a mobile telephone with a dictation function which has additional usage elements which
10 allow use of a mobile telephone as a dictation machine and records speech on additional removable memory.

Document AM1, German DE 196 34 863 A1 relates to a portable telephone multi-function group which has energy and a current supply circuit for a portable telephone coupled to a free-speaking and automatic call answering
15 device.

Applicants respectfully submit that the claimed invention is distinguishable and non-obvious over the enclosed references, taken singly or in combination. Accordingly, early consideration and allowance of the application, including the claims, are hereby requested.

20 Respectfully Submitted,

(Reg. No. 39,056)
